A person to whom information is disclosed pursuant to this subsection shall agree in writing not to further disclose the information, but this requirement for an agreement does not prevent disclosure of information that is necessary to obtain further information for the purposes set forth in this subsection.

(4) (a) Disclosure may be made between licensees if the information disclosed is limited to that which is reasonably necessary:

(i) to detect or prevent criminal activity, fraud, material misrepresentation, or material nondisclosure in

connection with insurance transactions; or

(ii) for either the disclosing or receiving licensee to perform its insurance function.

(b) A licensee receiving information pursuant to this subsection (4) may not further disclose the information unless otherwise permitted by this section.

(5) Disclosure may be made to a medical care institution, a medical professional, or the individual to whom the information pertains if that information is reasonably necessary for the following purposes:

(b) if the licensee or insurance-support organization reasonably believes that illegal activities have been conducted by the individual; or

(c) as provided in [section 1].

(8) Disclosure that is limited to that which is reasonably necessary may be made as otherwise permitted or required by law.

(9) Disclosure that is limited to that which is reasonably necessary may be made in response to a facially valid administrative or judicial order, including a search warrant or subpoena.

(b) A licensee disclosing pursuant to this section must have a written agreement with the affiliate that the affiliate will not use or further disclose information received except to carry out the purposes set forth in subsection (12)(a) and that if further disclosure is necessary to meet those purposes, the disclosure will be made only to the licensee or to a person who agrees in writing to be bound by the same prohibition on use and disclosure. A disclosure allowed by 33-19-307 is governed by that section.

(13) Disclosure that is limited to that which is reasonably necessary may be made to an insurance-support organization to perform insurance-support services for the licensee. The insurance-support organization may redisclose the information to the extent necessary to provide its services to its member or subscriber licensees and other insurance-support organizations or as otherwise permitted by law, but not for a marketing purpose.

(18) Disclosure may be made to a person contractually engaged to provide services to enable a licensee to perform an insurance function, or to perform an insurance function on behalf of a licensee, if the person agrees in writing that the person will not use or further disclose information obtained or developed pursuant to the engagement except to carry out the limited purpose of the engagement and that if further disclosure is necessary to perform the insurance function, that disclosure will be made only to the licensee or to a person who agrees in writing to be bound by the same prohibitions on use and disclosure.

(19) If a licensee has to disclose personal or privileged information in order to perform an insurance function and disclosure is not permitted under another exception in this section, disclosure may be made to a person other than a licensee if the disclosure is limited to that which is reasonably necessary to enable the person to perform services or an insurance function for the disclosing licensee and if the person is notified by the licensee that the person is prohibited from:

(a) using the information other than to carry out the limited purpose for which the information is disclosed;
and

(b) disclosing the information other than to the licensee and as allowed in subsection (3).

"61-3-332. Standard license plates. (1) In addition to special license plates, collegiate license plates, generic specialty license plates, and fleet license plates authorized under this chapter, a separate series of standard license plates must be issued for motor vehicles, quadricycles, travel trailers, trailers, semitrailers, and pole trailers registered in this state or offered for sale by a vehicle dealer licensed in this state. Standard license plates issued to licensed vehicle dealers must be readily distinguishable from license plates issued to vehicles owned by other persons.

(2) (a) Except as provided in 61-3-479 and subsections (2)(b), (3)(b), and (3)(c) of this section, all standard license plates for motor vehicles, trailers, semitrailers, or pole trailers must bear a distinctive marking, as determined by the department, and be furnished by the department. In years when standard license plates are not ~~issued~~ reissued for a vehicle, the department shall provide a registration decal that must be affixed to the rear license plate of the vehicle.

(b) For light vehicles that are permanently registered as provided in 61-3-562 and motor vehicles described in 61-3-303(9) that are permanently registered, the department shall provide a distinctive registration decal indicating that the motor vehicle is permanently registered. The registration decal must be affixed to the rear license plate of the permanently registered motor vehicle.

(c) For a travel trailer, motorcycle, quadricycle, trailer, semitrailer, or pole trailer that is permanently registered as provided in 61-3-313(2), the department may use the word or an abbreviation for the word "permanent" on the plate in lieu of issuing a registration decal for the plate.

(3) (a) (i) Beginning January 1, 2010, and every ~~4~~ 5 years after that date, the department shall ~~manufacture and issue new design~~ standard license plates to replace previously issued standard license plates ~~upon renewal~~. For the purposes of this subsection (3), all military, veteran, and amateur radio license plates and any license plate with a wheelchair design, excluding collegiate or generic specialty plates with a wheelchair design, are treated as standard license plates.

(ii) License plates issued on or after January 1, 2010, must be replaced with the most recent design of standard license plates or a new replacement collegiate or generic specialty license plate if, upon renewal of registration under 61-3-332, the license plates are 5 or more years old or will become older than 5 years during

the registration period.

(iii) License plates issued on or before January 1, 2010, must be replaced with the most recent design of standard license plates or a new replacement collegiate or generic specialty license plate in accordance with the implementation schedule adopted by the department under 61-3-315. Until January 1, 2015, and upon payment of the fee required in 61-3-321(12)(b), a vehicle owner may elect to keep the same license plate number from license plates issued on or after January 1, 2006, but before January 1, 2010, when replacement of those plates is required under this subsection.

(b) A motor vehicle that is registered for a 13-month to a 24-month period, as provided in 61-3-311, may display the license plate and plate design in effect at the time of registration for the entire registration period.

(c) A light vehicle ~~described in subsection (2)(b)~~ described in subsection (2)(b) or a motor home that is permanently registered ~~may display the license plate and plate design in effect at the time of registration for the entire period that the light vehicle or motor home is permanently registered~~ may display the license plate and plate design in effect at the time of registration for the entire period that the light vehicle or motor home is permanently registered.

(d) The provisions of this subsection (3) do not apply to a travel trailer, motorcycle, quadricycle, trailer, semitrailer, or pole trailer.

(e) The requirements of this subsection (3) apply to collegiate license plates authorized under 61-3-461 through 61-3-468, generic specialty license plates authorized under 61-3-472 through 61-3-481, commemorative centennial license plates authorized under 61-3-448, and special military or veteran license plates authorized under 61-3-458.

(4) For trailers and motor vehicles, other than motorcycles and quadricycles, plates must be of metal 6 inches wide and 12 inches in length. Except for generic specialty license plates, the outline of the state of Montana must be used as a distinctive border on all license plates, and the word "Montana" must be placed on each license plate. All license plates must be treated with a reflectorized background material according to specifications prescribed by the department.

(5) The distinctive registration numbers for standard license plates must begin with a number one or with a letter-number combination, such as "A 1" or "AA 1", or any other similar combination of letters and numbers. Except for special license plates, collegiate license plates, generic specialty license plates, and fleet license plates, the distinctive registration number or letter-number combination assigned to the motor vehicle must appear on the plate preceded by the number of the county and appearing in horizontal order on the same horizontal

baseline. The county number must be separated from the distinctive registration number by a separation mark unless a letter-number combination is used. The dimensions of the numerals and letters must be determined by the department, and all county and registration numbers must be of equal height.

(6) For the use of exempt motor vehicles, trailers, semitrailers, or pole trailers and motor vehicles, trailers, semitrailers, or pole trailers that are exempt from the registration fee as provided in 61-3-321, in addition to the markings provided in this section, standard license plates must bear the following distinctive markings:

(a) For motor vehicles, trailers, semitrailers, or pole trailers owned by the state, the department may designate the prefix number for the various state departments. All numbered plates issued to state departments must bear the words "State Owned", and a year number may not be indicated on the plates because these numbered plates are of a permanent nature and will be replaced by the department only when the physical condition of numbered plates requires it.

(b) For motor vehicles, trailers, semitrailers, or pole trailers that are owned by the counties, municipalities, and special districts, as defined in 18-8-202, organized under the laws of Montana and not operating for profit, and that are used and operated by officials and employees in the line of duty and for motor vehicles on loan from the United States government or the state of Montana to, or owned by, the civil air patrol and used and operated by officials and employees in the line of duty, there must be placed on the standard license plates assigned, in a position that the department may designate, the letter "X" or the word "EXEMPT". Distinctive registration numbers for plates assigned to motor vehicles, trailers, semitrailers, or pole trailers of each of the counties in the state and those of the municipalities and special districts that obtain plates within each county must begin with number one and be numbered consecutively. Because these standard license plates are of a permanent nature, they are subject to replacement by the department only when the physical condition of the license plates requires it and a year number may not be displayed on the plates.

(7) For the purpose of this chapter, the several counties of the state are assigned numbers as follows: Silver Bow, 1; Cascade, 2; Yellowstone, 3; Missoula, 4; Lewis and Clark, 5; Gallatin, 6; Flathead, 7; Fergus, 8; Powder River, 9; Carbon, 10; Phillips, 11; Hill, 12; Ravalli, 13; Custer, 14; Lake, 15; Dawson, 16; Roosevelt, 17; Beaverhead, 18; Chouteau, 19; Valley, 20; Toole, 21; Big Horn, 22; Musselshell, 23; Blaine, 24; Madison, 25; Pondera, 26; Richland, 27; Powell, 28; Rosebud, 29; Deer Lodge, 30; Teton, 31; Stillwater, 32; Treasure, 33; Sheridan, 34; Sanders, 35; Judith Basin, 36; Daniels, 37; Glacier, 38; Fallon, 39; Sweet Grass, 40; McCone, 41; Carter, 42; Broadwater, 43; Wheatland, 44; Prairie, 45; Granite, 46; Meagher, 47; Liberty, 48; Park, 49; Garfield, 50; Jefferson, 51; Wibaux, 52; Golden Valley, 53; Mineral, 54; Petroleum, 55; Lincoln, 56. Unless otherwise specifically stated in this section, the special plates are subject to the same rules and laws as govern the issuance of standard license plates, must be placed or mounted on a motor vehicle, trailer, semitrailer, or pole trailer owned by the person who is eligible to receive them, with the registration decal affixed to the rear license plate of the motor vehicle, trailer, semitrailer, or pole trailer, and must be removed upon sale or other disposition of the motor vehicle, trailer, semitrailer, or pole trailer.

(c) A person with a permanent condition, as provided in 49-4-301(2)(b), who has been issued a special license plate upon written application, as provided in this subsection (9), is not required to reapply upon reregistration of the motor vehicle.

(1) ~~A "motor vehicle liability policy", as the term is used in this part, means an owner's or operator's policy of liability insurance, certified as provided in 61-6-133 or 61-6-134 as proof of financial responsibility and issued, except as otherwise provided in 61-6-134, by an insurance carrier duly authorized to transact business in this state, to or for the benefit of the person named therein as insured.~~

Section 23. Section 61-6-105, MCA, is amended to read:

"61-6-105. Department to administer law and make rules. (1) The department shall administer and enforce the provisions of this part and may make rules necessary for its the administration of the online motor vehicle liability insurance system.

(2) The rules must:

consistent with specifications and standards of the insurance industry committee on motor vehicle administration and other applicable industry standards;

(b) provide for the suspension of a vehicle's registration when:

(iv) the department receives a report from a court that a person has been convicted of a violation of 61-6-301 or 61-6-302 and the surrender of the vehicle registration receipt and license plates under 61-6-304 has been ordered;

(c) prohibit the reinstatement of a vehicle's registration and the new registration of a vehicle unless the applicable reinstatement fees have been paid;

(d) set a fee for the reinstatement of a vehicle's registration following a suspension imposed by the department. The fee may not exceed \$100 and is in addition to any other fine or penalty prescribed by the law.

(e) provide for periodic insurance data file transfers from insurers under specifications and standards set forth in [section 1] to identify vehicles that are not covered by an insurance policy and to monitor ongoing compliance with mandatory vehicle liability insurance requirements;

(f) provide for random checks to identify vehicles that are not covered by an insurance policy; and

(g) ~~may provide for hearings upon request of persons~~ a hearing for a person aggrieved by ~~orders or acts~~ of a suspension order issued by the department under the provisions of this part.

(3) The department may adopt additional rules to:

(a) assist authorized users in interpreting responses received from the system and determining the appropriate action to be taken as a result of a response; and

(b) otherwise clarify system operations and business rules."

Section 24. Section 61-6-302, MCA, is amended to read:

"61-6-302. Proof of compliance. (1) The registration receipt required by 61-3-322 must contain a statement that unless the vehicle is eligible for an exemption under 61-6-303, it is unlawful to operate the vehicle

without a valid motor vehicle liability insurance policy, a certificate of self-insurance, or a posted indemnity bond, as required by 61-6-301.

(2) Each person shall carry in a motor vehicle being operated by the person an insurance card approved by the department but issued by the insurance carrier to the motor vehicle owner as proof of compliance with 61-6-301. If the card is issued under a commercial automobile insurance policy or a self-insured fleet, the card must indicate the status as "commercially insured" or "fleet". A motor vehicle operator shall exhibit the insurance card upon demand of a justice of the peace, a city or municipal judge, a peace officer, a highway patrol officer, or a field deputy or inspector of the department. A person commits an offense under this subsection if the person fails to carry the insurance card in a motor vehicle or fails to exhibit the insurance card upon demand of a person specified in this subsection. ~~However, a person charged with violating this subsection may not be convicted if~~

(3) Beginning July 1, 2011, a person charged with violating subsection (2) may not be convicted if:

(a) the arresting officer or another person authorized to access information from the online motor vehicle liability insurance verification system under [section 2] submits to the system a request that provides proof of insurance valid at the time of arrest; or

(b) if the system under [section 1] is not available, the person produces in court or the office of the arresting officer proof of insurance valid at the time of arrest.

(4) In lieu of charging an operator who is not the owner of a vehicle with violating subsection (2), the officer may issue a complaint and notice to appear charging the owner with a violation of 61-6-301 and serve the complaint and notice to appear on the owner of the vehicle:

(a) personally; or

(b) by certified mail, return receipt requested, at the address for the owner listed on the registration receipt for the vehicle or, following query through available law enforcement systems, at the address maintained for the vehicle's owner by the jurisdiction in which the vehicle is titled and registered, or both."

Section 25. Section 61-9-204, MCA, is amended to read:

"61-9-204. Taillamps. (1) A motor vehicle, trailer, semitrailer, and pole trailer and any other vehicle that is being drawn at the end of a combination of vehicles must be equipped with at least one properly functioning taillamp mounted on the rear that emits a red light plainly visible from a distance of 500 feet to the rear, except that in the case of a combination of vehicles, only the taillamp on the rearmost vehicle need actually be seen from the distance specified. The vehicles mentioned in this subsection, other than a motorcycle, quadricycle,

motor-driven cycle, or truck tractor, registered in this state and manufactured or assembled after January 1, 1956, must be equipped with at least two properly functioning taillamps, with at least one mounted on each side of the rear of the vehicle, that emit a red light plainly visible from a distance of 1,000 feet to the rear of the vehicle.

(2) A taillamp upon a vehicle must be located at a height of not more than 72 inches or less than 15 inches.

A taillamp or taillamps, together with a separate lamp for illuminating the rear registration plate, must be lighted whenever the headlamps are lighted.

(4) Taillamps are not required on a motorcycle that is registered under 61-3-411 as a collector's item, but the motorcycle may not be operated on a highway or street from one-half hour after sunset to one-half hour before sunrise or when persons and vehicles are not clearly discernible at a distance of 500 feet unless it is equipped with the required taillamps.

(5) A person may not operate a motor vehicle on a highway with taillamps that are covered by a lens or a plastic cover or with a tinted or colored material, substance, system, or component placed on or in front of rear lamps, taillamps, license plate lamps, or rear lamp combinations that obscures the taillamps or diminishes the distance of visibility required by this section.

(6) (a) A custom vehicle or street rod may use a blue dot taillight, as defined in subsection (6)(b), as a stop lamp, a rear signal lamp, or a rear reflector.

(b) "Blue dot taillight" means a red lamp installed in the rear of a motor vehicle containing a blue or purple insert that is not more than 1 inch in diameter."

Description of fiscal impact:

SB 508 creates an online vehicle insurance verification system funded by a state special revenue account and transfers the cost of license plate production funding from general fund to this state special revenue account. SB 508 also changes the distribution of the new issue license plate fee to a split between general fund and the new state special revenue account as well as distributing the new fees for retaining the same license plate number and the registration suspension reinstatement fee to this new state special revenue account.

FISCAL ANALYSIS

Assumptions:

Department of Corrections (DoC)

1. SB 508, as it pertains to the Department of Corrections, provides for the Department of Justice (DOJ) to contract with the Montana Correctional Enterprise's (MCE) License Plate Factory for the manufacturing, inventory control, storage, and distribution of license plates; requires MCE to provide the necessary interface to support the automated ordering of license plates; requires MCE to provide software necessary to assess the readability of plate designs; and includes provisions for payment to MCE upon shipment of plates to DOJ, a county treasurer, or a vehicle owner.
2. SB 508 provides provisions for MCE license plate factory to establish an internal service fund, where all payments from the DOJ state special revenue fund, established under this bill, are to be deposited and all expenditures for the operation of the production of license plates are paid. Currently the MCE License Plate Factory is funded by the general fund, receiving an annual appropriation. Revenue from plate sales is then deposited through the Department of Revenue into the general fund.
3. SB 508 establishes a five-year rolling reissue of license plates to begin January 1, 2010. Estimating that 600,000 sets of plates are manufactured and sold during a plate reissue, changing to a rolling five-year reissue will amortize the 600,000 sets over five years for 120,000 sets of plates to be produced and sold annually in addition to the approximately 300,000 regular annual sets of plates.
4. It is the assumption of MCE that ½ of the first year of the biennium will be regular plate production and the License Plate Factory will be gearing up for the rolling reissue and providing the services required in this bill, including establishment of the distribution center, software and programming to provide the interfaces needed between the DOJ Merlin and DOC Vehicle Information Management System (VIMS), and the Digital License Plate (DLP) machine. MCE will be required to contract with a third party provider to provide these services, as both the VIMS and DLP machines and software are proprietary programs and the third party provider will be required to complete the necessary interfaces. Therefore, MCE is requesting that the \$1,093,561 base general fund budget remain in the appropriation for the first year of the biennium (FY 2010). The second year is being reduced by the \$1,093,561, as it is the assumption that the internal service fund will be operational and revenues will begin covering expenditures.
5. Fiscal years 2012 and 2013 reflect a reduction in general fund expenditures, with the assumption that in the next biennium MCE would be required to request an increase in the general fund budget to \$1,250,000 for normal cost increases and the fact that the FY 2008 base budget is low due to the high inventory levels that were maintained in fiscal years 2007 and 2008 to cover the supplies needed for the reissue of specialty plates, which did not occur.
6. With the assumption made in number three above, license plate production costs are estimated at \$1,839,600 per year. FY 2010 expenditures are ½ of the normal fiscal year, which is \$919,800. This cost is based on the current 2.00 FTE, overtime and inmate payroll for eighteen inmate workers (\$149,000), direct manufacturing supplies (\$1,497,926) and operating expenses (\$192,674). The cost per set, based on the production of 420,000 sets of plates, is \$4.38. These expenditures for ½ of FY 2010 and one hundred percent of fiscal years 2011, 2012 and 2013 will be reflected in the internal service fund established under this bill.
7. The cost associated with the registration fulfillment and inventory management portion of the Senate Bill includes a distribution center for mailing plates to vehicle owners, counties, or DOJ. The cost of that service is estimated at \$1.75 per set of plates. The total cost associated with this fulfillment and the distribution center is \$735,000 per year, with FY 2010 reflecting ½ of those costs.

8. In addition, MCE is adding \$.07 per set of plates to cover incidental costs. The \$.07 per set of plates equates to \$29,400 per fiscal year, with $\frac{1}{2}$ of that figure \$14,700 being reflected in FY 2010 ($\$420,000 \times .07 = \$29,400$. $\$29,400 / 2 = \$14,700$).
9. When license plates are shipped from the MCE License Plate Factory, the DOJ state special revenue fund, established in the bill, will be charged the per plate cost. It is the assumption of MCE that those costs will be paid by on-line journal within thirty days of receipt, therefore, allowing the MCE License Plate Factory to be self-supporting. The amount billed to the DOJ state special revenue account will be \$6.20 per set (\$4.38 – manufacturing fee, \$1.75 Registration fulfillment and distribution, \$.07 – incidental costs), regardless of the means for shipping and the location shipped.
10. With the passage of SB 508, MCE will need to establish the internal service fund to be used, request additional spending authority for the operating expenditures, request the 2.00 FTE be transferred from the general fund in the second year of the biennium to the internal service fund, and have the rates for the manufacturing of plates be approved.
11. Given the above noted assumptions the DoC's portion of this fiscal note will show a decrease in general fund expenditures of \$2,828,599 for the FY 2010 (the passage of this bill will negate the need for the DOC Program 4 present law adjustment for the license plate renewal), a decrease of \$1,119,470 in FY2011 ($\$1,093,561 + \$25,909$ (reissue funds) = \$1,119,470), decrease of \$1,250,000 for both FY 2012 and FY 2013 – see assumption 5 above.
12. The figures included in DoC's portion of this fiscal note pertaining to the internal service fund reflect the expenditures based on assumptions six through nine above.
13. The revenue shown in the DoC's portion of this fiscal note reflects the revenue for 420,000 sets of plates to be billed to DOJ @ \$6.20 per set ($420,000 \times \$6.20 = \$2,604,000$ -FY 2011, FY 2012 and FY 2013. $\$2,604,000/2 = \$1,302,000$ – FY 2010)

Department of Justice

14. SB 508 creates an online motor vehicle liability insurance verification system (OMVLIVS) effective July 2011. To select a vendor(s) to assist in the establishment and maintenance of this online motor vehicle liability insurance verification system, the Department of Justice (DOJ) will work with the Department of Administration in a request for proposal (RFP) procurement process.
15. A contract manager will be necessary to work with the Department of Administration Procurement Office and department staffs to develop the RFP, manage the department's participation in the RFP process, and oversee the design and implementation of the online motor vehicle insurance verification system. Utilizing a contractor (from the state term contract provider listing) full-time for twelve months, operating costs for this contractor are estimated at \$195,000 which would be split equally between FY 2010 and FY 2011 [$\$195,000 \times 0.5 = \$97,500$].
16. Until a vendor(s) is selected through a RFP process, the actual cost for the implementation and maintenance of the OMVLIVS referenced in assumption one is unknown. For fiscal note purposes, it is assumed this system will cost \$500,000 for the hardware, software, and implementation costs based on vendor information for a similar product. The dollar amounts between hardware, software, and implementation costs cannot be broken out separately until the RFP process is complete. Therefore, the one-time cost of \$500,000 estimated cost will be included in the operating costs expenditure category for FY 2011.
17. Assuming annual maintenance costs are assessed at \$0.50 per year for each light vehicle, heavy truck, bus, and motor home registered in Montana and using the number of light vehicles, heavy trucks, buses, and motor homes actively registered in Montana in FY 2008 (1,079,467 including those permanently registered), the annual operation expense for maintenance for the online motor vehicle liability insurance verification system is estimated at \$539,734 in state special revenue account funds annually. Operating expenditures for this state special revenue account are estimated at \$269,867 in FY 2011 and \$539,734 annually thereafter for these maintenance costs [$1,079,467 \text{ vehicles} \times \$0.50/\text{vehicle}/\text{year} = \$539,734$ annually; $\frac{1}{2}$ year for FY 2011; no adjustment is made for growth].

18. Operating expenditures for rulemaking provided for in Sections 10 and 22 are estimated to be \$750 in state special revenue funds in FY 2010.
19. Section 10 of SB 508 increases the fee for a new issue or replacement set of license plates from \$5 to \$10 and changes the distribution of these fees from \$5 for the general fund to \$2 for the general fund and \$8 for the vehicle insurance verification and license plate operating state special revenue account established in section three.
20. Section 10 also provides for an additional fee of \$15 when a vehicle owner elects to retain the same license plate number for plates issued between January 1, 2006 and January 1, 2010 and distributes that fee to the vehicle insurance verification and license plate operating state special revenue account established in section three.
21. Approximately 300,000 sets of license plates are issued annually due to purchases of new vehicles, transfers of ownership, and the purchase of duplicate or replacement plates (including generic specialty license plates).
22. SB 508 establishes a five-year rolling reissue of license plates beginning January 1, 2010. Approximately 600,000 additional sets of license plates were sold during the last license plate re-issue in 2006. If the same number of license plates would be distributed over a five-year rolling re-issue, it is assumed that 120,000 sets of license plates would be sold and issued annually due to the rolling re-issue.
23. Additionally, the general fund projected revenue for the periodic new issue of license plates of \$1,372,598 in FY 2010 and \$1,609,330 in FY 2011[MBARS Decision Package 1208]
24. Assuming the vehicle owners of five percent of the new plates issued under the rolling re-issue elect to retain the same license plate number, revenue for the online vehicle insurance verification and license plate operating state special revenue account would increase \$45,000 in FY 2010 and \$90,000 annually until January 2015.
25. The revenue impact of assumptions 19 through 24 are projected in the follow table below. License plate issues are adjusted by the estimated HJ2 and OBPP estimated growth rates for motor vehicles the results are in the following table:

26. Revenue for the online vehicle insurance verification and license plate operating state special revenue account generated from these transactions would increase approximately \$1,165,514 in FY 2010 (1/2 year) and approximately \$3,200,000 annually thereafter.
27. The general fund would decrease approximately \$1,679,000 in FY 2010 by \$2,202,000 in FY 2011, and approximately \$600,000 annually thereafter due to the re-distribution of the new issue plate fee for new vehicle purchases, transfers, duplicate and replacement plates
28. The bills elimination of the CY 2010 plate reissue and replacement with the five-year rolling reissue would also remove the need for DOJ one-time operating expenses of \$321,250 associated with the reissue. [MBARS Decision Package 1208]
29. SB 508 provides for the suspension of a vehicle registration for failure to respond and provide information related to the insurance status of a vehicle, misrepresentation regarding vehicle usage, failure to carry mandatory liability insurance, or a report of a conviction and surrender of the registration. Section 22 of the bill provides for a reinstatement fee and, for the purposes of this fiscal note, it is assumed the fee is \$100 for the registration reinstatement.

30. Insurance industry information indicates that 30 percent of motor vehicle insurance policies are cancelled annually (either the coverage is terminated or a policy is replaced with a different policy). Based on that industry information, it is assumed that about 275,000 insurance verification processes would be handled annually for vehicles registered in Montana.
31. If one percent of the 275,000 insurance verification processes result in a registration suspension, an estimated \$275,000 in reinstatement fees would be generated for the vehicle insurance verification and license plate operating state special revenue account annually beginning in FY 2012 [275,000 verification processes * 1% = 2,750 suspensions/reinstatements * \$100/reinstatement = \$275,000].
32. Data is not available to determine the revenue that would be generated by a fee for third-party access to the verification system by authorized commercial businesses (lenders, rental car and truck companies, vehicle leasing companies, and vehicle dealers) for verifying vehicle insurance or insurance companies investigating potential insurance fraud and claims.
33. Through the use of appointment scheduling in addition to utilizing technology and managing available resources, the department would use available staffing resources to address the duties associated with the hearings related to suspension orders and system user assistance provided for in Section 22 of this bill.
34. SB 508 provides that DOJ would contract with the Montana Correctional Enterprises for the production, inventory control, storage and distribution of the license plates issued. Based on cost estimates from the Department of Corrections, it is estimated DOJ will be billed \$6.20 per set of license plates shipped to DOJ, the county treasurers, or vehicle owners.
35. Assuming the contract with the Montana Correctional Enterprises would be effective for plates issued on or after January 1, 2010, approximately 210,000 sets of license plates would be produced and shipped in FY 2010 and 420,000 annually thereafter at an estimated cost of \$1,302,000 in FY 2010 and \$2,604,000 annually thereafter in state special revenue funds [300,000 base year transactions + 120,000 rolling re-issue = 420,000 sets of license plates issued annually * \$6.20/set = \$2,604,000 annually; ½ for FY 2010 due to effective date].
36. To bring the Montana Enhanced Registration and Information Network (MERLIN) system into compliance with SB 508 (for example, to collect and distribute the fees collected at registration for the online motor vehicle insurance verification and license plate operating account, the rolling reissuance, and the third party information access fees), Justice Information Technology Services Division will contract with its vendor. It is estimated that this will cost \$214,400 in FY 2010 [\$160/hr * 1,340 hours = \$214,400].
37. Integrated Justice Information System (IJIS) Broker Integration: A critical component of implementing the OMVLIVS will be the ability to integrate the insurance verification services it will provide with the existing, but disparate, information systems used by law enforcement and motor vehicle registration personnel. To achieve this necessary integration the department will leverage the capabilities of their IJIS Broker platform to facilitate the query/response interaction. The IJIS Broker will provide transport, translation, and transformation services between the existing MERLIN Automated Registration and Titling System (ARTS), Criminal Justice Information Network (CJIN) Switch, Consolidated Technology Solutions (CTS) America Smart Cop application, and the future OMVLIVS application.
- Each application will require both an inquiry and response interaction with the IJIS Broker.
 - Existing frameworks already used to share information between the IJIS Broker and CJIN Switch will be extended to achieve integration of the insurance verification service from the OMVLIVS.
 - Existing frameworks already used to share information between the IJIS Broker and MERLIN ARTS will be extended to achieve integration of the insurance verification service from the OMVLIVS.
 - The estimated one-time contracted services costs to make the above changes will be approximately \$160,000 in FY 2010.

38. Based on section 3(3) of SB 508, all expenditures for implementation and maintenance of the provisions of SB 508 will be made from the vehicle insurance verification and license plate operating account in the state special revenue fund type.

Department of Administration

39. MCA 15-1-122 requires the transfer of certain percentages of state vehicle revenue to various state special funds. As vehicle general fund revenues change, transfers to these state special accounts change. The following table outlines the agencies impacted by this bill and their share of general fund motor vehicle revenue. There are multiple programs in each agency that are funded by these:

Share of Motor Vehicle Revenue Transfers to Agencies under 15 -1-122, MCA

Department of Fish, Wildlife & Parks	0.72%
Department of Transportation	0.30%
Department of Military Affairs	0.64%
Department of Agriculture	1.50%
Department of Environmental Quality	1.48%

40. The reduction in general fund motor vehicle revenue will result in reductions in the 15-1-122, MCA transfers to multiple programs in each agency. The net reduction in transfers by agency is presented in the following table:

Long-Term Impacts:

1. Passage of SB 508, as it pertains to the Department of Corrections, will remove the MCE License Plate Factory from the general fund appropriations, as the License Plate Factory will become a self-supporting operations.
2. Counties will not have the need for the excess inventory, as the Registration Fulfillment and Inventory Management portion of the contract will allow for just-in-time delivery to all customers including counties. This will lessen the overall cost of production as it is believed that there is thousands of dollars of inventory in counties that at the end of a reissue cycle are disposed of.

**Dedication of Revenue 2011 Biennium****17-1-507-509, MCA.**

- a) Are there persons or entities that benefit from this dedicated revenue that do not pay? (please explain)**

Individuals and business entities would all benefit from the services funded through this online motor vehicle insurance verification account.

- b) What special information or other advantages exist as a result of using a state special revenue fund that could not be obtained if the revenue were allocated to the general fund?**

Monies generated from the plate fees being reassigned per SB 508 would fund expenditures involved in creating and maintaining the online motor vehicle insurance verification system. Utilizing a state special revenue account would ensure that those who benefit from the system also support the costs of providing the system.

- c) Is the source of revenue relevant to current use of the funds and adequate to fund the program activity that is intended? Yes / No (if no, explain)**

Yes

- d) Does the need for this state special revenue provision still exist? X Yes ___No (Explain)**

The proposed online motor vehicle insurance verification system would have to be funded through general fund if this state special revenue funding source was not available if SB 508 is passed.

- e) Does the dedicated revenue affect the legislature's ability to scrutinize budgets, control expenditures, or establish priorities for state spending? (Please Explain)**

Yes, this provides the mechanism to accurately identify revenues and expenditures for the processes provided for in SB 508.

- f) Does the dedicated revenue fulfill a continuing, legislatively recognized need? (Please Explain)**

Yes. This dedicated revenue would fund the costs of creating and maintaining an online motor vehicle insurance verification system.

- g) How does the dedicated revenue provision result in accounting/auditing efficiencies or inefficiencies in your agency? (Please Explain. Also, if the program/activity were general funded, could you adequately account for the program/activity?)**

The proposed dedicated revenue account would comply with generally accepted accounting practices to accurately identify the revenues and expenditures associated with the online insurance verification system proposed by SB 508. Those benefiting from the system would also fund the costs of the system.

If SB 508 were general fund, accounting for the revenue and expenditures could be accounted for by creating separate revenue and expenditure orgs within SABHRS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

Section 1. Creation of online motor vehicle liability insurance verification system. (1) The department, in cooperation with the commissioner of insurance, shall establish an accessible common carrier-based motor vehicle insurance verification system to verify the compliance of a motor vehicle owner or operator with motor vehicle liability policy requirements under 61-6-103, 61-6-301, and 61-6-302 and facilitate or monitor proof of financial responsibility filings under 61-6-133 and 61-6-134.

(2) The department may contract with a private vendor or vendors to establish and maintain the system.

(3) The system must:

(a) send requests to insurers for verification of motor vehicle liability insurance using electronic services established by the insurers, through the internet, world wide web, or a similar proprietary or common carrier electronic system in compliance with the specifications and standards of the insurance industry committee on motor vehicle administration and other applicable industry standards;

(b) include appropriate provisions to secure its data against unauthorized access and to maintain a record of all requests and responses;

(c) be accessible, without fee, to authorized personnel of the department, the courts, law enforcement personnel, county treasurers, and authorized agents under the provisions of 61-3-116;

(d) interface, wherever possible, with existing department and law enforcement systems;

(e) receive insurance data file transfers from insurers under specifications and standards set forth in subsection (3)(a) to identify vehicles that are not covered by an insurance policy;

(f) provide a means by which low-volume insurers that are unable to deploy an online interface with the system can report insurance policy data to the department or its designee for inclusion in the system;

(g) provide a means to track separately or distinguish motor vehicles that are subject to a certificate of self-insurance under 61-6-143, a surety or indemnity bond under 61-6-137 or 61-6-301, or a deposit of cash or securities under 61-6-138;

(h) be available 24 hours a day, 7 days a week, subject to reasonable allowances for scheduled maintenance or temporary system failures, to verify the insurance status of any vehicle in a manner prescribed by the department; and

(i) be installed and operational no later than July 1, 2011, following an appropriate testing period of not less than 6 months.

(4) The provisions of Title 2, chapter 6, parts 1 and 2, do not apply to the information contained in the verification system.

(5) Every insurer shall cooperate with the department in establishing and maintaining the system and shall provide access to motor vehicle liability policy status information to verify liability coverage for:

(a) a vehicle insured by that company that is registered in this state; and

(b) if available, for a vehicle that is insured by that company or that is operated in this state and that is the subject of an accident investigation regardless of where the vehicle is registered.

Section 2. Law enforcement use of verification system. (1) Notwithstanding the requirements of 61-6-302, a peace officer or authorized employee of a law enforcement agency may, during the course of a traffic stop or accident investigation, access the verification system provided under [section 1] to verify whether a motor vehicle is covered by a valid motor vehicle liability policy that meets the requirements of 61-6-103 and 61-6-301.

(2) (a) Except as provided in subsection (2)(b), the response received from the system supersedes an insurance card produced by a vehicle owner or operator, and notwithstanding the display of an insurance card by the owner or operator, the peace officer may issue a complaint and notice to appear to the owner or operator for a violation of 61-6-301 or 61-6-302.

(b) Subsection (2)(a) does not apply if the vehicle is:

- (i) covered under a commercial automobile insurance coverage policy;
- (ii) part of a self-insured fleet as provided in 61-6-143; or
- (iii) included in an insurance binder, as allowed by 33-15-411, that has not been entered into the system at the time the system is accessed under subsection (1) of this section.

A disclosure allowed by 33-19-307 is governed by that section.

(13) Disclosure that is limited to that which is reasonably necessary may be made to an insurance-support organization to perform insurance-support services for the licensee. "61-3-332. Standard license plates. (1) In addition to special license plates, collegiate license plates, generic specialty license plates, and fleet license plates authorized under this chapter, a separate series of standard license plates must be issued for motor vehicles, quadricycles, travel trailers, trailers, semitrailers, and pole trailers registered in this state or offered for sale by a vehicle dealer licensed in this state. Standard license plates issued to licensed vehicle dealers must be readily distinguishable from license plates issued to vehicles owned by other persons.

(2) (a) Except as provided in 61-3-479 and subsections (2)(b), (3)(b), and (3)(c) of this section, all standard license plates for motor vehicles, trailers, semitrailers, or pole trailers must bear a distinctive marking, as determined by the department, and be furnished by the department. In years when standard license plates are not ~~issued~~ reissued for a vehicle, the department shall provide a registration decal that must be affixed to the rear license plate of the vehicle.

(b) For light vehicles that are permanently registered as provided in 61-3-562 and motor vehicles described in 61-3-303(9) that are permanently registered, the department shall provide a distinctive registration decal indicating that the motor vehicle is permanently registered. The registration decal must be affixed to the rear license plate of the permanently registered motor vehicle.

(c) For a travel trailer, motorcycle, quadricycle, trailer, semitrailer, or pole trailer that is permanently registered as provided in 61-3-313(2), the department may use the word or an abbreviation for the word "permanent" on the plate in lieu of issuing a registration decal for the plate.

(3) (a) (i) Beginning January 1, 2010, and every ~~4~~ 5 years after that date, the department shall ~~manufacture and issue new design~~ standard license plates to replace previously issued standard license plates ~~upon renewal~~. For the purposes of this subsection (3), all military, veteran, and amateur radio license plates and any license plate with a wheelchair design, excluding collegiate or generic specialty plates with a wheelchair design, are treated as standard license plates.

(ii) License plates issued on or after January 1, 2010, must be replaced with the most recent design of standard license plates or a new replacement collegiate or generic specialty license plate if, upon renewal of registration under 61-3-332, the license plates are 5 or more years old or will become older than 5 years during

the registration period.

(iii) License plates issued on or before January 1, 2010, must be replaced with the most recent design of standard license plates or a new replacement collegiate or generic specialty license plate in accordance with the implementation schedule adopted by the department under 61-3-315. Until January 1, 2015, and upon payment of the fee required in 61-3-321(12)(b), a vehicle owner may elect to keep the same license plate number from license plates issued on or after January 1, 2006, but before January 1, 2010, when replacement of those plates is required under this subsection.

(b) A motor vehicle that is registered for a 13-month to a 24-month period, as provided in 61-3-311, may display the license plate and plate design in effect at the time of registration for the entire registration period.

(c) A light vehicle ~~described in subsection (2)(b)~~ described in subsection (2)(b) or a motor home that is permanently registered ~~may display the license plate and plate design in effect at the time of registration for the entire period that the light vehicle or motor home is permanently registered~~ may display the license plate and plate design in effect at the time of registration for the entire period that the light vehicle or motor home is permanently registered.

(d) The provisions of this subsection (3) do not apply to a travel trailer, motorcycle, quadricycle, trailer, semitrailer, or pole trailer.

(4) For trailers and motor vehicles, other than motorcycles and quadricycles, plates must be of metal 6 inches wide and 12 inches in length. Except for generic specialty license plates, the outline of the state of Montana must be used as a distinctive border on all license plates, and the word "Montana" must be placed on each license plate. All license plates must be treated with a reflectorized background material according to specifications prescribed by the department.

(5) The distinctive registration numbers for standard license plates must begin with a number one or with a letter-number combination, such as "A 1" or "AA 1", or any other similar combination of letters and numbers. Except for special license plates, collegiate license plates, generic specialty license plates, and fleet license plates, the distinctive registration number or letter-number combination assigned to the motor vehicle must appear on the plate preceded by the number of the county and appearing in horizontal order on the same horizontal

baseline. The county number must be separated from the distinctive registration number by a separation mark unless a letter-number combination is used. The dimensions of the numerals and letters must be determined by the department, and all county and registration numbers must be of equal height.

(6) For the use of exempt motor vehicles, trailers, semitrailers, or pole trailers and motor vehicles, trailers, semitrailers, or pole trailers that are exempt from the registration fee as provided in 61-3-321, in addition to the markings provided in this section, standard license plates must bear the following distinctive markings:

(a) For motor vehicles, trailers, semitrailers, or pole trailers owned by the state, the department may designate the prefix number for the various state departments. All numbered plates issued to state departments must bear the words "State Owned", and a year number may not be indicated on the plates because these numbered plates are of a permanent nature and will be replaced by the department only when the physical condition of numbered plates requires it.

(b) For motor vehicles, trailers, semitrailers, or pole trailers that are owned by the counties, municipalities, and special districts, as defined in 18-8-202, organized under the laws of Montana and not operating for profit, and that are used and operated by officials and employees in the line of duty and for motor vehicles on loan from the United States government or the state of Montana to, or owned by, the civil air patrol and used and operated by officials and employees in the line of duty, there must be placed on the standard license plates assigned, in a position that the department may designate, the letter "X" or the word "EXEMPT". Distinctive registration numbers for plates assigned to motor vehicles, trailers, semitrailers, or pole trailers of each of the counties in the state and those of the municipalities and special districts that obtain plates within each county must begin with number one and be numbered consecutively. Because these standard license plates are of a permanent nature, they are subject to replacement by the department only when the physical condition of the license plates requires it and a year number may not be displayed on the plates.

(7) For the purpose of this chapter, the several counties of the state are assigned numbers as follows: Silver Bow, 1; Cascade, 2; Yellowstone, 3; Missoula, 4; Lewis and Clark, 5; Gallatin, 6; Flathead, 7; Fergus, 8; Powder River, 9; Carbon, 10; Phillips, 11; Hill, 12; Ravalli, 13; Custer, 14; Lake, 15; Dawson, 16; Roosevelt, 17; Beaverhead, 18; Chouteau, 19; Valley, 20; Toole, 21; Big Horn, 22; Musselshell, 23; Blaine, 24; Madison, 25; Pondera, 26; Richland, 27; Powell, 28; Rosebud, 29; Deer Lodge, 30; Teton, 31; Stillwater, 32; Treasure, 33; Sheridan, 34; Sanders, 35; Judith Basin, 36; Daniels, 37; Glacier, 38; Fallon, 39; Sweet Grass, 40; McCone, 41; Carter, 42; Broadwater, 43; Wheatland, 44; Prairie, 45; Granite, 46; Meagher, 47; Liberty, 48; Park, 49; Garfield, 50; Jefferson, 51; Wibaux, 52; Golden Valley, 53; Mineral, 54; Petroleum, 55; Lincoln, 56. (1) In addition to special license plates, collegiate license plates, generic specialty license plates, and fleet license plates authorized under this chapter, a separate series of standard license plates must be issued for motor vehicles, quadricycles, travel trailers, trailers, semitrailers, and pole trailers registered in this state or offered for sale by a vehicle dealer licensed in this state. Standard license plates issued to licensed vehicle dealers must be readily distinguishable from license plates issued to vehicles owned by other persons.

(2) (a) Except as provided in 61-3-479 and subsections (2)(b), (3)(b), and (3)(c) of this section, all standard license plates for motor vehicles, trailers, semitrailers, or pole trailers must bear a distinctive marking, as determined by the department, and be furnished by the department. In years when standard license plates are not ~~issued~~ reissued for a vehicle, the department shall provide a registration decal that must be affixed to the rear license plate of the vehicle.

(b) For light vehicles that are permanently registered as provided in 61-3-562 and motor vehicles described in 61-3-303(9) that are permanently registered, the department shall provide a distinctive registration decal indicating that the motor vehicle is permanently registered. The registration decal must be affixed to the rear license plate of the permanently registered motor vehicle.

(c) For a travel trailer, motorcycle, quadricycle, trailer, semitrailer, or pole trailer that is permanently registered as provided in 61-3-313(2), the department may use the word or an abbreviation for the word

"permanent" on the plate in lieu of issuing a registration decal for the plate.

(3) (a) (i) Beginning January 1, 2010, and every ~~4~~ 5 years after that date, the department shall ~~manufacture and issue new design~~ standard license plates to replace previously issued standard license plates ~~upon renewal. For the purposes of this subsection (3), all military, veteran, and amateur radio license plates and~~ any license plate with a wheelchair design, excluding collegiate or generic specialty plates with a wheelchair design, are treated as standard license plates.

(ii) License plates issued on or after January 1, 2010, must be replaced with the most recent design of standard license plates or a new replacement collegiate or generic specialty license plate if, upon renewal of registration under 61-3-332, the license plates are 5 or more years old or will become older than 5 years during the registration period.

(iii) License plates issued on or before January 1, 2010, must be replaced with the most recent design of standard license plates or a new replacement collegiate or generic specialty license plate in accordance with the implementation schedule adopted by the department under 61-3-315. Until January 1, 2015, and upon payment of the fee required in 61-3-321(12)(b), a vehicle owner may elect to keep the same license plate number from license plates issued on or after January 1, 2006, but before January 1, 2010, when replacement of those plates is required under this subsection.

(b) A motor vehicle that is registered for a 13-month to a 24-month period, as provided in 61-3-311, may display the license plate and plate design in effect at the time of registration for the entire registration period.

(d) The provisions of this subsection (3) do not apply to a travel trailer, motorcycle, quadricycle, trailer, semitrailer, or pole trailer.

(4) For trailers and motor vehicles, other than motorcycles and quadricycles, plates must be of metal 6 inches wide and 12 inches in length. Except for generic specialty license plates, the outline of the state of Montana must be used as a distinctive border on all license plates, and the word "Montana" must be placed on

each license plate. All license plates must be treated with a reflectorized background material according to specifications prescribed by the department.

Except for special license plates, collegiate license plates, generic specialty license plates, and fleet license plates, the distinctive registration number or letter-number combination assigned to the motor vehicle must appear on the plate preceded by the number of the county and appearing in horizontal order on the same horizontal baseline. The county number must be separated from the distinctive registration number by a separation mark unless a letter-number combination is used. The dimensions of the numerals and letters must be determined by the department, and all county and registration numbers must be of equal height.

(6) For the use of exempt motor vehicles, trailers, semitrailers, or pole trailers and motor vehicles, trailers, semitrailers, or pole trailers that are exempt from the registration fee as provided in 61-3-321, in addition to the markings provided in this section, standard license plates must bear the following distinctive markings:

(a) For motor vehicles, trailers, semitrailers, or pole trailers owned by the state, the department may designate the prefix number for the various state departments. All numbered plates issued to state departments must bear the words "State Owned", and a year number may not be indicated on the plates because these numbered plates are of a permanent nature and will be replaced by the department only when the physical condition of numbered plates requires it.

(b) For motor vehicles, trailers, semitrailers, or pole trailers that are owned by the counties, municipalities, and special districts, as defined in 18-8-202, organized under the laws of Montana and not operating for profit, and that are used and operated by officials and employees in the line of duty and for motor vehicles on loan from the United States government or the state of Montana to, or owned by, the civil air patrol and used and operated by officials and employees in the line of duty, there must be placed on the standard license plates assigned, in a position that the department may designate, the letter "X" or the word "EXEMPT". Distinctive registration numbers for plates assigned to motor vehicles, trailers, semitrailers, or pole trailers of each of the counties in the state and those of the municipalities and special districts that obtain plates within each county must begin with number one and be numbered consecutively. Because these standard license plates are of a permanent nature, they are subject to replacement by the department only when the physical condition of the license plates requires it and a year number may not be displayed on the plates.

(7) For the purpose of this chapter, the several counties of the state are assigned numbers as follows: Silver Bow, 1; Cascade, 2; Yellowstone, 3; Missoula, 4; Lewis and Clark, 5; Gallatin, 6; Flathead, 7; Fergus, 8;

Unless otherwise specifically stated in this section, the special plates are subject to the same rules and laws as govern the issuance of standard license plates, must be placed or mounted on a motor vehicle, trailer, semitrailer, or pole trailer owned by the person who is eligible to receive them, with the registration decal affixed to the rear license plate of the motor vehicle, trailer, semitrailer, or pole trailer, and must be removed upon sale or other disposition of the motor vehicle, trailer, semitrailer, or pole trailer.

(c) A person with a permanent condition, as provided in 49-4-301(2)(b), who has been issued a special

license plate upon written application, as provided in this subsection (9), is not required to reapply upon reregistration of the motor vehicle.

**Senate Bill 508 – Sponsor: Senator John Brueggeman
Information Only Testimony**

Good afternoon Mr. Chairman and members of the committee. For the record my name is Gayle Lambert. I am the administrator of the Montana Correctional Enterprise division of the Department of Corrections. I apologize that I am unavailable for the hearing before the House Transportation committee. I am submitting my written testimony for the record.

Montana Correctional Enterprises (MCE) provides work and training programs to inmates incarcerated in the State prisons in Montana. One of the many programs that we operate is the license plate factory at the Montana State Prison, which produces all Montana license plates for the Department of Justice Motor Vehicle Division.

Senate Bill 508, new section 4 states that the Department of Justice shall contract with MCE to manufacture, provide inventory control, storage and distribution of all license plates. Montana license plates have been produced at the Montana State Prison since the original plate in 1914. This bill will continue the partnership between the two agencies, and will enhance the training opportunities for offenders involved in this program by providing the Department of Justice the additional services mentioned.

Although prison work and training programs provide specific job skill training, probably the most important aspect is teaching inmates work ethics and what it is like to feel pride in accomplishments. MCE strives in each of our programs to provide valuable training that can be used by inmates to find meaningful employment upon release from prison, reducing their chance of return.

It is very doubtful that an inmate incarcerated in Montana will ever find another position producing license plates when they are released from prison, but it is probable that they could land another manufacturing position. Inventory control, just-in-time delivery and packaging and distribution experience are additional avenues to assist inmates to obtain employment after release.

Another component of this bill provides that the license plate factory become a self-supporting operation. The Motor Vehicle Division would contract with the Department to produce plates. The plates would be produced and shipped to the MVD office, a specific county or counties or directly to a customer. MCE would then bill the Motor Vehicle Division for the cost of those plates and deposit the revenues into an Internal Service Fund account. All expenditures for the cost of operations would be paid directly from the Internal Service Fund account. On the Department of Corrections side, that would alleviate the need for general

funding from our budget after the first year of the 2011 biennium, for the purpose of producing license plates.

MCE currently has two other internal service fund programs: 1. Motor Vehicle Maintenance, which operates an automobile and equipment repair shop and; 2. Food Factory, which produces over ten thousand meals per day for the State Prison, Boot Camp, State Hospital, Elkhorn Treatment Center, Helena Pre-release center, WATCH 4th DUI treatment Center and the Anaconda-Deer Lodge County Jail.

I have prepared a fiscal note regarding SB508. I apologize for being unavailable for the hearing, but am available for any questions via cell phone.

Thank you.
